**PRICE/QUOTATION**

- An extra 8.75% sales tax will be added to the total price if no seller's permit was provided.
- The prices are subject to change without notice.

**CANCELLATION OR CHANGE ORDERS**

IMPORTANT! Due to the nature of our customized products, we cannot accept changes or cancellations after orders have been put into production.

**ORDER ACKNOWLEDGEMENT**

- Order Acknowledgement (OA) / Estimate is sent via email within 48 hours (2 business days) of receiving orders. In cases where order processing exceeds 48 hours due to special circumstances, the lead time will still be calculated based on the original order date. Please make sure you have your updated email address on file with us.
- The order will NOT be processed unless the Order Acknowledgement / Estimate is confirmed. Delayed confirmation may result in a postponement of the order's completion.

**LEAD TIME**

- Standard lead time is 10 business days. However, this may vary, and any changes will be communicated either through notification or at the time of order confirmation.
- Orders received after 2:30 p.m. Pacific Time are considered as the next business day orders.
- All orders are subject to inventory availability. Any impact on the order lead time due to stock levels will be communicated either through notification or at the time of order confirmation. For non-stock items, we encourage you to confirm availability with us prior to placing an order.

**CONTRACTOR QUOTE / COMMERCIAL QUOTE**

- Minimum Order Quantity (MOQ) is 100 units per order.
- All commercial quotes are valid for 90 days. Expired quotes are subject to change without notification.
- Any change, including but not limited to size, fabric, valance, controls, quantity, special requirements, may result in a change in price and order's completion date.
- Deposit is required.

## **1-YEAR LIMITED MANUFACTURER WARRANTY**

### **What Is Covered By The Warranty**

- Warranty is offered to the original owner.
- The warranty only applies to products installed properly in the window for where they were intended, following the installation instructions, care guide, programming instructions, and suggestions.
- The warranty applies to products made and assembled solely with our original materials.
- Warranty will repair or replace the product solely at the manufacturer's option due to defective material or poor workmanship.

***\*Note: The motorized parts is 5-year warranty. Smart Controller is 3-year warranty.***

### **What Is Not Covered By The Warranty**

- This warranty does not apply to any products damaged by accident, misuse, abuse, direct exposure to salty air or improper moisture, discoloration due to sunlight, under exposure or irregular temperature.
- This warranty does not apply to conditions caused by normal wear and tear upon the product. It does not apply to any product damaged by fire, flood, wind, rain, lightning, or other act of nature environment.
- In no event shall the manufacturer be liable for incidental or consequential damage, loss, cost, expense or fee.
- Warranty does not apply to liquidated or discontinued items.
- Warranty does not include shipping charges.

### **Information Needed For Warranty Claim**

Please contact the customer service with the following information, including:

- Original sales order with invoice number and side mark
- Specific product (line number in the confirmed OA)
- Detailed description of defect

## INDOOR USE

Our shades are designed for indoor use only. To ensure optimal performance and longevity, please operate the shades properly and avoid exposure to outdoor elements.

## OPERATION GUIDELINES

- **Corded Shades:** Slowly pull straight down on the chain in the direction you wish to operate. Avoid pulling on an angle or too hard-and-quick, as this may break or dislodge the chain from the internal mechanism. (Figure 1)
- **Cordless Shades:** Pull down or push up gently on the bottom rail until the shade reaches the desired position. Push up the shade too fast may cause the fabric fold or wrinkle because the mechanism hasn't had enough time to fully retract. (Figure 2)
- **Motorized Shades:** Use remote "Control" or Smart App to operate the shade. Motor programming instruction is separate from this guideline. (Figure 3)

Figure 1

Figure 2

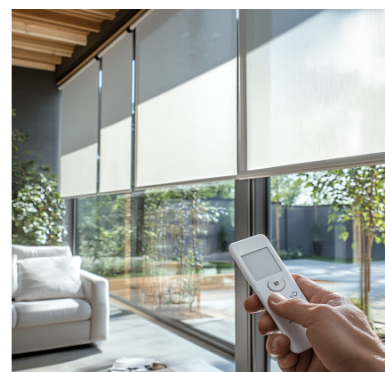

Figure 3

***\*Note: Cordless Operation: Hold evenly at the bottom rail for wider shades.***

## HOW TO MEASURE YOUR WINDOWS

**Measure each window individually to the nearest 1/8". PLEASE DO NOT USE A CLOTH TAPE.**

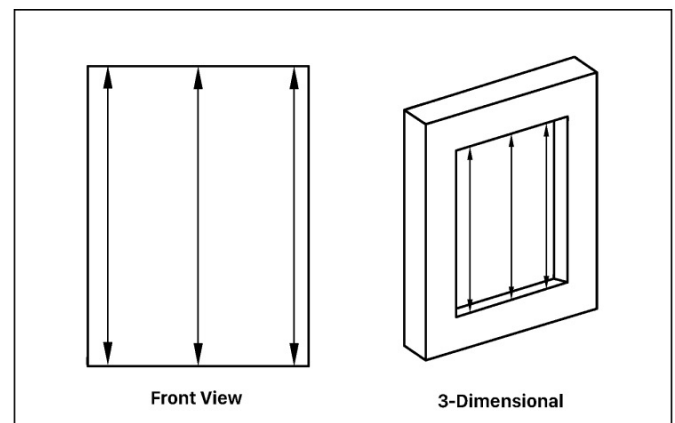

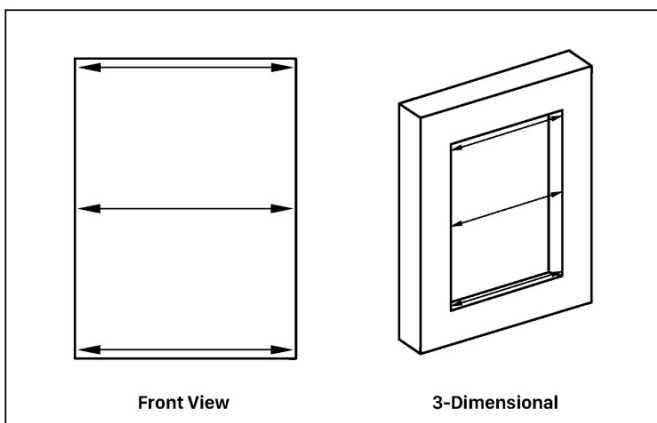

### Inside Mount

- Measure the exact inside width of the window frame from one inside edge to the other. Take three measurements - one near the top, one in the center, and one near the bottom. Record the narrowest measurement.
- Measure the exact height in three places: left, center and right from top edge of opening to top of sill. Record the longest measurement.
- Do not take deductions on inside mount measurements. The factory will take an 3/16" allowances for operating clearance.
- Measure the window diagonally in two places. If the two diagonal measurements are not the same, we suggest an outside mount application for the best shade performance and appearance.

### Outside Mount

- Measure the exact width of the area to be covered. Be certain the measurement overlaps the window opening by at least 1-1/2" on each side to ensure privacy and light control.
- Measure exact height to be covered, including desired overlap (usually from top edge of molding to bottom edge, or to top of sill). If there is no sill, measure to where the shade is to reach.

***\*Note: To ensure proper installation and full window coverage, it is recommended to mount the bracket at least 3" above the window opening.***

**PACKING, FREIGHT AND DELIVERY**

- Packing Fee (Corrugated Cardboard): \$5/shade
- Local Delivery Fee: \$150/trip (0~35 miles); Ask for Quote (35 miles and further)
- Small Parcel Shipment Fee: Ask for Quote
- TL / LTL Shipment Fee: Ask for Quote

**SHIPPING DAMAGE AND SHORTAGES**

- Blinds California is NOT responsible for any damages or loss of products that occur during shipping or handling once the order has been picked up via "Will Call". All products should be inspected by the customer at the time of pickup to ensure they are in acceptable condition and correct quantities.
- For orders delivered by Blinds California, customers must inspect the products upon delivery. Any damages or loss identified after delivery must be reported within 24 hours. Blinds California will not be held responsible for damages or loss identified after delivery must be reported.
- 
- For orders shipped or delivered via third-party carriers, Blinds California is not liable for any damages, delays, or loss that occur during transit. Customers should contact the shipping provider directly for claims related to third-party shipping or delivery issues.

**WILL CALL HOURS AND GUIDELINES**

- Monday to Friday, 9:00 AM — 12:30 PM, 1:30 PM — 4:00 PM (except Holidays).
- Full payment is required upon pickup.
- All products should be inspected by the customer at the time of pickup to ensure they are in acceptable condition and correct quantities.

**INSTALLATION SERVICES**

SERVICES	PRICE	UOM
On-site Measurement	\$ 150.00	Per Trip
Installation ( < 35 miles from Blinds California Factory)	\$ 15.00	Per Shade
Trip Charge ( 35 ~ 70 miles from Blinds California Factory)	\$ 250.00	Per Installation
Shade / Blind Removal	\$ 15.00	Per Shade
Shutter Removal	\$ 35.00	Per Shutter
Drapery Removal	\$ 35.00	Per Drape
Installation Minimum Charge	\$ 300.00	Per Installation

**\*NOTE:**

- On-site measurement and installation services are subject to technician availability.
- Appointments are required for all on-site services.
- Please schedule in advance to ensure availability.
- We recommend confirming your appointments as early as possible, as scheduling is based on first- come, first-served.
- Any changes or cancellations should be communicated at least 1 business day before the scheduled appointment.
- If there is a balance due, it must be paid in full prior to the installation appointment.
- All charges are NET prices.

**REPAIR & MODIFICATION NET SURCHARGES**

REPAIRING SERVICES	NET SURCHARGE PER SHADE	LEAD TIME
Repair/Replace Chain	\$ 30.00	2 BusinessDays
Cut Down the Width or Height	\$ 75.00	2 BusinessDays
Change Valance Fabric Cover	\$ 30.00	3 BusinessDays
Swap Fabric	New Shade Price x 0.85	3 BusinessDays

Change Valance	New Valance Price + \$ 50.00	3 BusinessDays
Change to Cordless	Cordless Surcharge + \$ 50.00	3 BusinessDays
Change to Motorized	Motor Cost + \$ 50.00	3 BusinessDays

**Repair & Rush Order**
**\*NOTE:**

- All repair charges are based on the customer dropping off and picking up the product.
- Additional shipping or trip charges will apply if shipping or pickup services are requested.

**REPAIR & MODIFICATION NET SURCHARGES**

RUSH OPTIONS	NET SURCHARGE PER SHADE
5 Business Days Rush	\$ 25.00
3 Business Days Rush	\$ 50.00

**\*NOTE:**

- Rush orders are subject to inventory availability and the production schedule.
- Rush Orders must be submitted by 2:30 p.m. Pacific Time to be processed on that business day.

**REMAKE POLICY**

If an order qualifies for a remake due to a manufacturing or shipping error (such as incorrect dimensions, color, fabric, or system failure), we will remake the product at no additional charge, strictly according to the specifications of the original order.

**\*NOTE:**

- Remakes are only intended to correct errors from the original order.
- Customers may not use a remake request to change the dimensions, fabric, operating system, mounting type, or any other specifications of the original order.
- If a customer wishes to modify any specifications, it will be treated as a new order and charged at the regular price.
- To process a remake request, customers must provide clear photo and/or video evidence showing the problem with the product.
- Failure to provide sufficient evidence may result in denial of the remake request.

**\*NOTE:**

- Manual clutch control 2-on-1: By default, the clutches are located on the left and right side of the shade, not in the middle of the shade.
- Top Treatment: 3" Cassettes, 4" Cassettes, Cornice Box.
- Operating System: Clutch, Motorization, Free Stop Cordless.
- Price as 2(3) separate shades and add together, then add the net charge of the selected valance and the corresponding surcharge. Refer to product Specifications for size limits.
- All surcharges are NET prices.

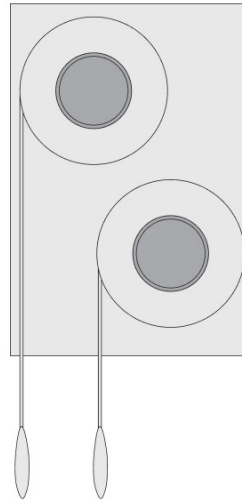

**3-ON-1**

**2-ON-1**

## DUO SHADE

- Top Treatment: 5.5" Flat Cassette, Cornice Box.
- Operating System: Motorization (Recommend), Clutch.
- Price as 2 separate shades and add together, then add the net charge of the selected valance.

Front view

Side view

## RAILROADING

For wider windows, some fabrics can be turned 90° clockwise (width for height), a technique known as railroading. However, it is important to note that the fabric manufacturer does not recommend railroading due to potential challenges with the material's integrity and appearance. If you choose to railroad a fabric for a shade wider than 90", be aware of the following normal characteristics that may occur:

- The edges of the fabric may curl, or the shade may exhibit slight overall waviness.
- A subtle "V" shape may appear in the center of the shade due to fabric weight.
- Tube deflection may occur.

Since these characteristics are normal and expected, requests for remakes or credits will not be accommodated. Maximum width for railroading is 144".

**CORDLESS OPTIONS**

CORDLESS	MIN & MAX	SURCHARGE
Free Stop Cordless	See Page "Specification I"	\$ 30/Each
Pull & Lock Cordless (Discontinued)	See Page "Specification I"	\$ 30/Each

**\*NOTE:**

- Cordless shades must come with cassette valances. No valance cordless option is not available at the moment.
- Cordless is NOT available for 3-on-1 shades.
- Cordless handle clips(Figure 7) can be requested with order for slim bottom rails (fabric wrapped or non-fabric wrapped). Pocket hem bar doesn't come with handle clip.
- All surcharges are NET prices.

**SPACER BLOCK**

To create additional space between the shade and the vertical wall surface, a spacer block can be placed beneath the installation brackets. Longer screws may be required for installation with spacer blocks.

Spacer blocks are available upon request and should be specified with the order.(Figure 8)

Figure 7

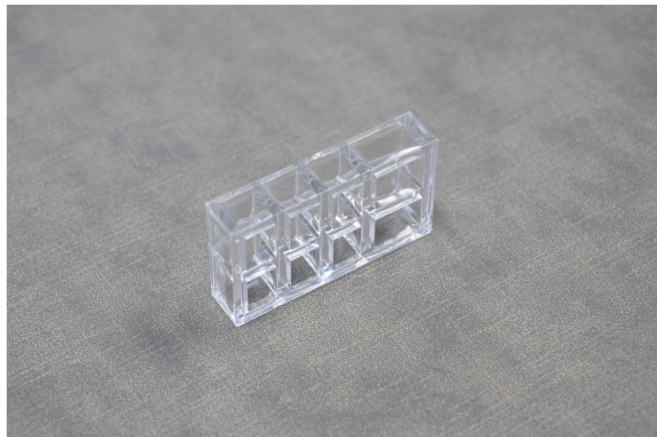

Figure 8

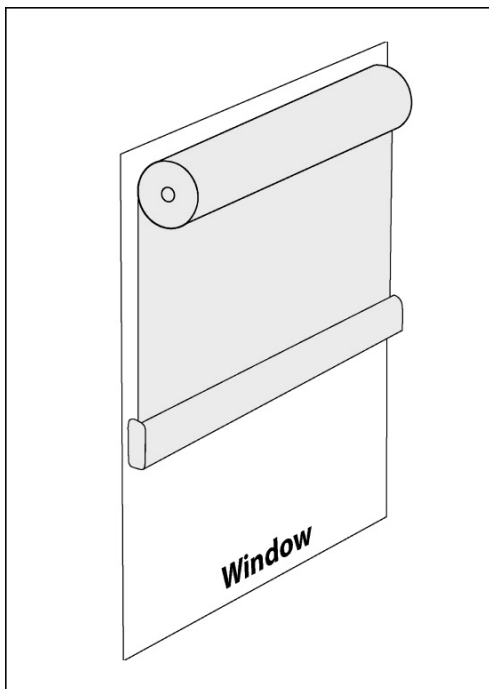

**HOLD DOWN MAGNET**

- Surcharge: \$25/each, NET
- Hold Down Magnets only work with pocket hem bar bottom rail.

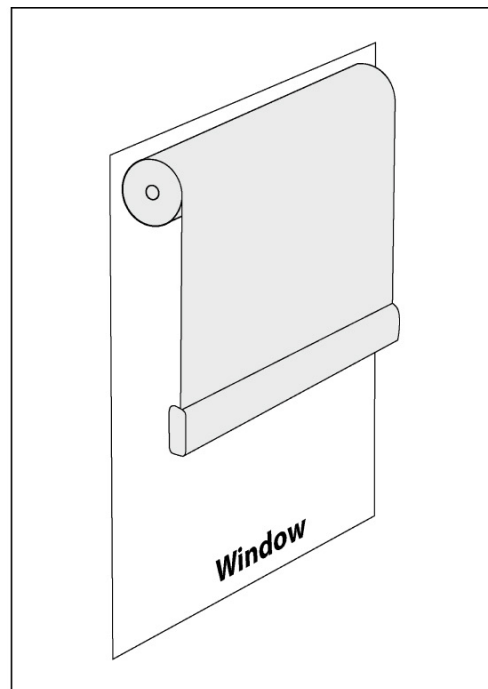

**REVERSE ROLL**

- Regular Roll (Default): Toward the glass
- Reverser Roll: Away from the glass

Reverse roll is available upon special request with the order.

Standard Roll

Reverse Roll

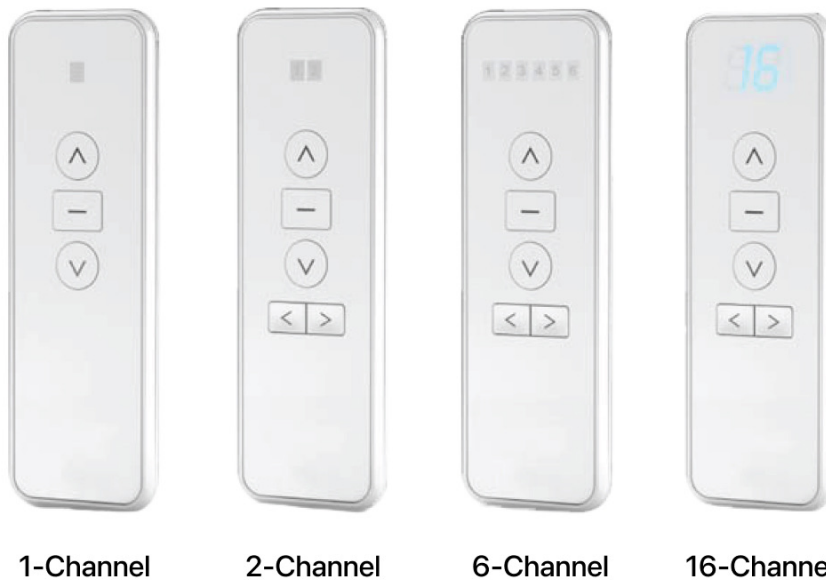

**ALPHA MOTOR ACCESSORIES**

**\*NOTE:**

- Each Alpha or BC Motor comes with 1 charging cable only. Charger box is sold separately.
- The default quantity of the USB charger and cable is 1 set per order. You can request more sets at no cost up to the same quantity as the rechargeable battery motor you ordered
- The motor battery life may vary depending on the frequency of use and the size (weight) of the shade. To ensure optimal performance, please charge the battery until the indicator turns green, then unplug it. Leaving the battery plugged in after it's fully charged may damage the battery, which is not covered under warranty. Typically, it takes 6-8 hours to fully charge the battery.
- For warranty purposes, only use the provided USB charger for rechargeable battery motor; damage caused by using alternative chargers will not be covered.

**MOTOR CAPACITY & PRICE**

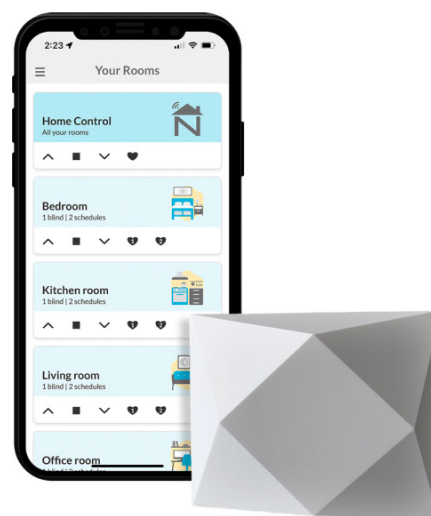

MOTOR	MAX. SQFT	PRICE (NET)	UOM
Alpha M Battery Motor	100	\$ 160.00	Each
Alpha L Battery Motor	144	\$ 180.00	Each
Alpha Wired 110V Motor (No Battery)	144	\$ 250.00	Each
Alpha Low Volt Motor (No Battery)	36	\$ 120.00	Each
BC_Battery Motor	100	\$ 129.00	Each

**Motorization III**
**SMART CONTROLLER**

SMARTHUB	PRICE (NET)	DESCRIPTION
NEO Smart Hub (with Smartphone APP)	\$ 185.00	Compatible with Alpha and BC Motors Compatible with Amazon Alexa, Google Home, SmartThings, Siri, Control 4, Savant, and MORE

**\*NOTE:**

- Indoor use only
- WiFi: 2.4GHz
- Coverage: up to 3,500 sq.ft.
- Coverage may vary based on house construction materials, layout, number of floors, reception strength, and Neo Smart Hub location. Central placement and higher elevation within the house help maximize signal distribution.
